

ISKOins Installation Manual

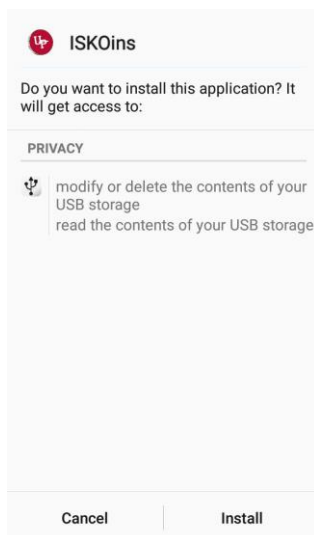

NOTE: This application may only be used on android phones

Download our Application:

1. Go to this website:
<https://github.com/delccv191/CS-191> and download ISKOins-0.1-debug.apk.
2. On your storage, search for ISKOins-0.1-debug.apk

3. Click on it and a screen similar to this may appear. Press install.

4. The app will be installed. When you see a screen similar to this, press done. You may now see the app on your phone and use it just like any other phone applications. It is now ready for use.
